DETAILED ACTION

Election/Restriction

The examiner states for clarity of the record that applicant's amendment adds new claims 28-37. The election/restriction is therefore expanded to include these new claims.

102 Rejections Withdrawn

The rejection of claims 1-7 and 9-27, in so far as they read on the species defined in the Final Office Action, under 35 USC 102(b), has been overcome by applicant's amendment. The amendment narrows the claim set such that it no longer reads on the cited art.

The examiner notes for clarity of the record, however, that the species defined in the previous Office Action, could be applied against new claims 28-37 in a similar manner that of claims 1-7 and 9-27. The examiner respectfully suggests that sets of complex Markush claims, such as those of the instant invention, be carefully constructed such that as Markush prosecution proceeds compound-by-compound, all claims remain commensurate in scope. This is particularly true for new (added) claims.

Allowable Subject Matter

The subject matter of claim 8 (the elected species) remains free of the prior art. The claim is objected to, however, as being dependent upon a rejected base claim (vide *infra*).

Applicant having overcome the outstanding rejection, the search was therefore expanded as called for under current Office Markush examination practice, a compound-by-compound search, to include a single additional compound. That compound is defined when, using formula (I): $R=R_1=R_2=H$; $A=C_1$ alkylene; $X=$ single bond; and $Y=$ alkyl. A rejection follows.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 9-37, in so far as they read on the species defined above, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by FR 2569185 A1 (CAPLUS abstract). The reference teaches applicant's compound: RN=104656-90-8. (The reference also teaches another of applicant's compounds: RN=104656-87-3.)

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
